

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

It is not in the interest of the American public at large to be limited from becoming aware and much more informed; due to the policies of the past to this ongoing situation. The problem of consolidation of the broadcast networks is limiting to say the least as a result of the policies of the FCC. It is high time for the ability to become informed is opened to more than the imposed view point of just a few on the marvelous diversity of the USA.
